

# Curriculum Vitae

Luis Enrique Sucar

## 1 General Information

**Name:** Luis Enrique Sucar Succar

**Degrees:** PhD Computing, Imperial College; MSc EE, Stanford Univ.; BSc Electronics, ITESM

**Distinctions:** National Researcher (SNI) Level III, Member Mexican Academy of Science, Senior Member IEEE, Member Mexican Engineering Academy, Member Mexican Computing Academy

**Date of birth:** May 17, 1957

**Place of birth:** Raleigh, N.C., United States of America

**Nationality:** Mexican

**Sex:** Male

**Civil Status:** Married

**Home Address:** Camino Real a Cholula # 4214 casa 46, Residencial Hacienda de San Andrés, Puebla, Puebla 72176 México

**Phone:** (222) 169 53 10

**Work:** INAOE, Coordinación de Ciencias Computacionales

**Address:** Luis Enrique Erro # 1, Tonantzintla, Puebla, México

**Phone:** (222) 266 31 00 x8208

**FAX:** (222) 266 31 52

**E-mail:** esucar@inaoep.mx

**URL:** <http://ccc.inaoep.mx/~esucar>

### Research Goal:

I am interested in understanding and building intelligent systems that can interact with the real world, taking the best decisions under uncertainty. Based on probabilistic graphical models and decision theory, I am extending and applying these representations to robotics, computer vision, energy and bio-medicine.

## 2 Main Awards and Distinctions

- President of the Mexican Robotics Federation (FMR), 2017–2018.
- “Premio Nacional de Ciencias” (National Science Prize), Mexican Presidency, 2016.
- Vice-president of the Mexican Academy of Computing (AMexComp), 2015-2018.
- Member of the Engineering Academy, Mexico, since 2013
- Senior Member, Institute of Electrical and Electronics Engineers (IEEE), since 2009
- Member of the Mexican Academy of Science, since 2006.
- Member of the “National Research System”, Mexico, 1984-2020. Level III since January, 2011.
- Distinguished Speaker for the Mexican Association of Artificial Intelligence (SMIA), 2008.
- Distinguished Speaker for the Association of Computing Machinery (ACM).
- President of the Mexican Society for Artificial Intelligence, 2000-2002.
- Associate Editor of Pattern Recognition, Elsevier.
- Associate Editor of Computational Intelligence, Wiley.
- Associate Editor of the Ibero-American Journal on Artificial Intelligence.
- Associate Editor of the Journal “Computación y Sistemas”.
- Invited Editor, International Journal of Approximate Reasoning (IJAR), 2010-2102.
- Member of the Advisory Board of the International Joint Conference on Artificial Intelligence (IJCAI), 2001.

## 3 Education

- BSc in Electronics and Communications Engineering, Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM), Monterrey, N.L., México, 1976-1980
- MSc in Electrical Engineering (Computer Systems), Stanford University, Palo Alto, CA, USA 1980-1982
- PhD in Computing, Thesis: “Probabilistic Reasoning in Knowledge-Based Vision Systems”, Imperial College, London, GB 1988-1992

### 3.1 Other Courses

1. Completion of the Innovation Readiness Series, INNOVA-Salud Program,  $IC^2$  Institute at The University of Texas at Austin, October 2014.
2. Completion of the Invent Your Future Program, Technology Business Accelerator, TechBA, Austin, Texas, June 2013.

## 4 Professional Experience

- Senior Research Scientist, Department of Computer Science, National Institute for Astrophysics, Optics and Electronics (INAOE), Mexico, 2006 to date. Research, teaching and technological development in computer science.
- Director of Research, National Institute for Astrophysics, Optics and Electronics (INAOE), Mexico, 2011 to 2013.
- Professor, Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM), Cuernavaca Campus, Cuernavaca, Morelos, Mexico. 1994-2005. Research and teaching in Computer Science.
- Research Engineer, Project Manager, Instituto de Investigaciones Eléctricas (Electrical Research Institute), Cuernavaca, Morelos, Mexico, 1982-1988, 1992-1994. R & D in computer systems for data acquisition and control in electrical power systems.

## 5 Academic Visits

- Visiting Professor, CREATE-NET, Trento, Italy, February - July, 2015. Sponsored by UBI-HEALTH, European Union Project. Research in ubiquitous computing for health applications.
- Visiting Professor, Computer Engineering Department, Bosphorus University, Istanbul, Turkey, July - August, 2014. Sponsored by UBI-HEALTH, European Union Project. Research in ubiquitous computing for health applications.
- Visiting Professor, *E-Motion* Group, Research Institute on Informatics and Automatic (INRIA), Grenoble, France, July - Sept. 2008. Sponsored by INRIA. Research in autonomous vehicles and Bayesian perception.
- Visiting Professor, Department of Computer Science, University of British Columbia, Canada. Sept. 2003 - August 2004. Sponsored by ITESM (sabbatical) and UBC. Research in Robotics and Artificial Intelligence.
- Academic Visit, Department of Computing, Imperial College of Science, Technology and Medicine, London, U.K., July 1995. Sponsored by the *Academia de Investigación Científica* and *Royal Society of London*. Research in Bayesian networks and applications.
- Post-Doctoral Research Assistant, Department of Computing, Imperial College of Science, Technology and Medicine, London, U.K., Nov.1991 - July 1992. Research in computer vision and expert systems.

## 6 Publications

### 6.1 Scientific Journals

1. A Morales-González, E García-Reyes, LE Sucar, “Image annotation by a hierarchical and iterative combination of recognition and segmentation”, *International Journal of Pattern Recognition and Artificial Intelligence*, 2017.
2. JI Vasquez-Gomez, LE Sucar, R Murrieta-Cid, “View/state planning for three-dimensional object reconstruction under uncertainty”, *Autonomous Robots* 41 (1), 89–109, 2017. (Q2)

3. P Hernandez-Leal, Y Zhan, ME Taylor, LE Sucar, EM de Cote, “An exploration strategy for non-stationary opponents”, *Autonomous Agents and Multi-Agent Systems* 31 (5), 971–1002, 2017. (Q3)
4. P Hernandez-Leal, Y Zhan, ME Taylor, LE Sucar, EM de Cote, “Efficiently detecting switches against non-stationary opponents”, *Autonomous Agents and Multi-Agent Systems* 31 (4), 767–789, 2017. (Q3)
5. Victor Alonso, Rogerio Enríquez, L. Enrique Sucar, “Foveation: an alternative method to simultaneously preserve privacy and information in face images”, *Journal of Electronic Imaging*, 26 (2), 2017. (Q4)
6. Pablo Hernandez-Leal, Yusen Zhan, Matthew E. Taylor, L. Enrique Sucar, Enrique Munoz de Cote, “Efficiently detecting switches against non-stationary opponents”, *Autonomous Agents and Multi-Agent Systems*, (published online Nov. 2016) (Computer Science Q3)
7. Pablo Hernandez-Leal, Yusen Zhan, Matthew E. Taylor, L. Enrique Sucar, Enrique Munoz de Cote, “An exploration strategy for non-stationary opponents”, *Autonomous Agents and Multi-Agent Systems*, (published online 13 oct. 2016) (Computer Science Q3)
8. Alban Maxhuni, Pablo Hernandez-Leal, L. Enrique Sucar, Venet Osmani, Eduardo F. Morales, Oscar Mayora, “Stress modelling and prediction in presence of scarce data”, *Journal of Biomedical Informatics* 63, 344–356, 2016 (Computer Science Q1)
9. HJ Escalante, EF Morales, LE Sucar, “A naive bayes baseline for early gesture recognition”, *Pattern Recognition Letters*: 73, 91–99, 2016 (Computer Science Q2)

### 6.5.2 Other Conferences and Workshops

1. Ramon Izquierdo-Cordova, Eduardo F. Morales, L. Enrique Sucar, and Rafael Murrieta-Cid, “Searching Objects in Known Environments: Empowering Simple Heuristic Strategies”, IJCAI Workshop on Service Robots, 2016.
2. Jesús J. Rivas, Felipe Orihuela-Espina, L. Enrique Sucar, Lorena Palafox, Jorge Hernández-Franco, Nadia Bianchi-Berthouze, “Detecting affective states in virtual rehabilitation”, Workshop on Adaptive Treatments and Therapies, Pervasive Health 2015.
3. Patrick Heyer, Jesús J. Rivas, Luis Enrique Sucar, Felipe Orihuela-Espina, “Improving classification of posture based attributed attention assessed by ranked crowd-raters”, Workshop on Adaptive Treatments and Therapies, Pervasive Health 2015.
4. Pablo Hernandez-Leal, Enrique Munoz de Cote and Enrique Sucar, “Exploration strategies to detect strategy switches”. Autonomous Learning Agents, workshop at AAMAS 2014.
5. Alvaro Soto, Felipe Orihuela-Espina, Diego Cosmelli, Cristian Alcholado, Patrick Heyer, and Luis Enrique Sucar, “Intelligent tutors exploiting novel sensing modalities for decoding students’ attention. *Workshop on Utilizing EEG Input in Intelligent Tutoring Systems* at the 12th International Conference on Intelligent Tutoring Systems (ITS 2014). Honolulu, Hawaii, USA, 5-9 Jun 2014.
6. H. Vasquez, L.E. Sucar, H. J. Escalante, “Simultaneous segmentation and recognition of gestures for human-machine interaction”, IJCAI Workshop on Ubiquitous Data Mining, China, August 2013.
7. Shender Avila-Sansores, Felipe Orihuela-Espina, Luis Enrique Sucar and Paloma lvarez-Crdenas, “Adaptive Virtual Rehabilitation Environments” ICML Workshop: Role of Machine Learning in Transforming Health, Atlanta, USA, June 2013.
8. Orihuela-Espina, Felipe; Sánchez-Pérez, Karla Janeth; Leff, Daniel R.; Sucar, Luis Enrique; Trevino-Palacios, Carlos G. “Towards a device capable of detecting the fast optical signal and its application to stroke rehabilitation”, 2nd Functional Near Infrared Spectroscopy, pg. 75 (2012), University College London, London, UK. 26-28th October.
9. Orihuela-Espina, Felipe; Sucar, Luis Enrique. “Dynamics of functional reorganization following stroke associated to virtual reality based motor rehabilitation”, 9th Annual Meeting of the Society for Brain Mapping and Therapeutics on Brain, Spinal Cord Mapping and Image Guided Therapy, (2012) Toronto, Canada, 2nd-4th Jun 2012
10. Orihuela-Espina, Felipe; Sánchez-Pérez, Karla Janeth; Herrera-Vega, Javier; Trevino-Palacios, Carlos G. and Sucar, Luis Enrique. “Instrumentación para espectroscopia infrarroja funcional”, Publicado en la XIV Reunión de Neuroimagen, Centro de Investigacin en Matemáticas (CIMAT), Guajalajara, Mexico, 19 Oct 2012.
11. Javier Herrera-Vega, Felipe Orihuela-Espina, Eduardo F. Morales, and Luis Enrique Sucar. “A framework for oil well production data validation”, Workshop on Operations Research and Data Mining (ORADM’2012) in 10th International Conference on Operations Research 10 pp., Cancún, Mexico, 12-14 March 2012.
12. Pablo Hernández-Leal, Lindsey Fiedler-Cameras, Alma Rios-Flores, Jess. A González and L. Enrique Sucar, “Contrasting Temporal Bayesian Network Models for Analyzing HIV Mutations”, Bayesian Modeling Applications Workshop, UAI 2012.

13. Hector Aviles, Roger Luis, Juan Oropeza, Felipe Orihuela-Espina, Ronald Leder, Jorge Hernandez-Franco, and Enrique Sucar, “Gesture Therapy 2.0: Adapting the rehabilitation therapy to the patient progress”, *Probabilistic problem solving in biomedicine*, AIME 2011.
14. Pablo Hernandez-Leal, Alma Rios-Flores, Santiago Avila-Rios, Gustavo Reyes-Teran, Jesus A. Gonzalez, Felipe Orihuela-Espina, Eduardo F. Morales, and L. Enrique Sucar, “Unveiling HIV mutational networks associated to pharmacological selective pressure: a temporal Bayesian approach”, *Probabilistic problem solving in biomedicine*, AIME 2011.
15. E. Ruiz, I. Vásquez, L.E. Sucar, “Red bayesiana para reconocimiento de objetos a partir de una gramática visual”, *XII Reunión de Neuroimagen (TNI10)*, CIMAT, Guanajuato, Gto., Oct. 2010.

7. E. Morales, E. Sucar, B. Vargas, S. Hernández, “KDD Systems in Tenaris Tamsa 2: Final Report”, INAOE, 2006.

## 7 Conferences

### 7.1 Invited International Conferences

1. “Visual-based planning under uncertainty for 3D reconstruction” , International Workshop on Vision and Control for Autonomous DRONES” , Puebla, Feb. 2017.
2. “Probabilistic graphical models and their applications in vision” , STSIVA, Bucaramanga, Colombia, August 2016.
3. “Bayesian Classification: Applications in Computer Vision” , ChaLearn Joint Contest and Workshop on Multimedia Challenges Beyond Visual Analysis, ICPR, 2016
4. “Gesture Therapy: Recent Developments” - Invited Conference, University College London - Interaction Center, Julio 2016.
5. “Bayesian network techniques for data analysis”, Ubi-Health Winter school, Trento, March 2016
6. “Improving image annotation and retrieval with graphical models”, National Laboratory of Pattern Recognition, China, August 2013.
7. “Gesture Therapy: An intelligent stroke rehabilitation system”, University College London, England, July 2013.
8. “User modeling for patient-tailored virtual rehabilitation”, Foundation of Biomedical Knowledge Representation, Lorentz Center, The Netherlands, October 2012.
9. “Probabilistic graphical models and their applications in intelligent environments”, Keynote Conference, 8th International Conference on Intelligent Environments, June 2012.

10. “Probabilistic graphical models: applications in biomedicine”, Microsoft Research Latin America Faculty Summit, Riviera Maya, Mexico, May 2012.
11. “A Service Robot named Markovito”, Invited Conference at Computer Science Department, Pontificia Universidad Católica, Santiago de Chile, November 2009.
12. “Interacción Multimodal Humano-Robot”, Conferencia Latinoamericana – Sociedad de la Información y el Conocimiento, Cinvestav, Mexico, October 2009.
13. “Is our Brain Bayesian? Probabilistic Graphical Models in Artificial Intelligence”, Plenary Talk, MICAI 2007.
14. “Remote Lab and Intelligent Tutor for Mobile Robotics”, International Workshop on Virtual Labs and Remote Experimentation, Porto, Portugal, June 2006.
15. “Approximate solution of complex decision problems based on abstraction and decomposition”, NSF Workshop on Approximate Dynamic Programming, Cocoyoc, México, April de 2006.
16. “Artificial Intelligence Research at ITESM Cuernavaca”, Invited talk, Mathematics and Computer Science Technology, Boeing Phantom Works, Seattle, USA, May 2004.
17. “Recognition of Gestures for Human-Robot Interaction”, LCI Forum, University of British Columbia, November 2003.
18. “Robotics virtual laboratory”, Seminario Internacional de Tecnologías de Internet, Universidad del Cauca, Popayán, Colombia, June 2001.
19. “Gesture recognition”, I Encuentro sobre la matemática aplicada a la ingeniería, la computación y las ciencias”, Instituto Tecnológico de Costa Rica, Feb. 2001.
20. “Objective Probabilities”, IEEE Workshop on Uncertainty Management in Expert Systems, London, GB, Dec 5, 1992.

## 7.2 Invited National (Mexico) Conferences

1. “Tecnología VANT y aprendizaje computacional aplicados a la optimización de la gestión agrícola”, Mexican humanitarian technology conference, Puebla, marzo 2017.
2. “Gesture Therapy: de idea a producto”, Seminario de Computación CIMAT, Guanajuato, Marzo 2017.
3. “Impacto IA en México”, Foro Consultivo Científico y Tecnológico, Ciudad de México, Marzo 2017.
4. “Panel: La conducción y vinculación de los sectores de la ciencia, tecnología e innovación”, La UNAM y los desafíos de la nación, Ciudad de México, mayo 2017.
5. “Markovito y Sabina: Robots de Servicio” - Departamental Seminar, CINVESTAV, Febrero 2016.
6. “Searching for objects in domestic environments with mobile robots”, 6to Taller de Robótica y Planificación de Movimientos, CIMAT, Abril 2016
7. “Modelos gráficos probabilistas: de datos a decisiones”, 8 Congreso Mexicano de Inteligencia Artificial, Puebla, Mayo de 2016
8. Participación en el “Foro Minsky”, 8 Congreso Mexicano de Inteligencia Artificial, Puebla, Mayo de 2016

9. “Clasificadores bayesianos: principios y aplicaciones”, IV Seminario nacional de aprendizaje e inteligencia computacional, Morelia, Mich., 2016.
10. “Searching and recognizing objects by mobile robots in domestic environments”, 12th International Congress on Technology Trends in Computing, CIDETEC, IPN, October 2016.
11. “Gesture Therapy: form idea to producto”, IEEE Day 2016. ITESM Puebla, Octubre 2016.
12. ‘Enseñando Pensamiento Computacional a Nivel Medio Superior en México’, Taller de Pensamiento Computacional, INAOE, Agosto 2014.
13. “Integrating modelling and reward shaping for fast learning: an application in therapy planning”, 5to Taller de Planificación de Movimientos, CIMAT, Feb. 2014.
14. “Bayesian Computation: from Data to Decisions”, 30 years of computing at CINVESTAV, December 2013.
15. “Terapia de gestos: explorando la plasticidad cerebral mediante ambientes virtuales para la rehabilitación”, SIEB-UPIBI, IPN, April 2013.
16. “Hacia dónde va la ciencia en México”, Panel, CIC-IPN, March 2013.
17. “Markovito: Un robot de servicio”, 12o Aniversario del Instituto Tecnológico de Huachinango, Agosto 2012.
18. “Terapia por gestos: explotando la plasticidad cerebral mediante ambientes virtuales para la rehabilitación”, Ciclo de Conferencias Magistrales en Computación, ITAM, Mayo 2012.
19. “Service Robots”, Plenary Talk, CONIELECOMP, UDLA, Feb. 2012.
20. “Los robots del futuro”, ITESM Laguna, Feb. 2012.
21. “Sistemas inteligentes y sus aplicaciones”, ITESM Laguna, Feb. 2012.
22. “Recuperación de imágenes por contenido”, Taller-Escuela de Procesamiento de Imágenes, CIMAT, Octubre de 2011.
23. “Modelos gráficos probabilistas y sus aplicaciones”, IX Symposium Nacional de Ciencias, Chetumal, Octubre de 2011.
24. “Modelos gráficos probabilistas y sus aplicaciones en biomedicina”, 2do Congreso Nacional de Tecnología Aplicada a Ciencias de la Salud, Puebla, Mayo de 2011.
25. “Sistemas inteligentes probabilísticos: principios y aplicaciones”, inFORO 2011, Inst. Tec. Superior de Sinaloa, Marzo de 2011.
26. “Modelos gráficos probabilistas y sus aplicaciones en biomedicina”, II Congreso Nac. de Tec. Aplicadas a Ciencias de la Salud, Puebla, Mayo 2011.
27. “Modelos gráficos recuperación de imágenes”, Universidad Tecnológica de la Mixteca, Enero 2011.
28. “Redes bayesianas: principios y aplicaciones”, Invited Conference at *CINVESTAV*, Mexico, October 2010.
29. “Terapia por gestos: integrando realidad virtual y visión computacional para la rehabilitación de extremidades superiores”, Invited Conference at *Jornadas del X Aniversario Unidad Tizimín*, Universidad Autónoma de Yucatán, Marzo de 2010.

30. “Markovito: un robot de servicio”, Invited Conference at *Laboratorio de Tecnologías de Información*, Cinvestav Tamaulipas, November 2009.
31. “Markovito: un robot de servicio”, *Primer Congreso Nacional de Computación e Informática - CONACI 2009*, U. A. del Carmen, Cd. del Carmen, Campeche, Mexico, September 2009.
32. “Los robots del futuro” within the series *Domingos en la Ciencia*, Mexican Academy of Science, Universidad Autónoma de Tlaxcala, Feb. 2009.
33. “Búsqueda de Imágenes por Contenido”, Encuentro Internacional de Tecnologías de Información”, UPAEP, March 2009.
34. “50 años de la Computación en México”, Panelista, UNAM, Noviembre 2008.
35. “¿Dónde quedó la foto? Búsqueda de imágenes por contenido”, VIII Simposium Internacional en Ciencias Computacionales, Tecnológico de Acapulco, Nov. 2008.
36. “Los robots del futuro o robots de servicio”, *Domingos en la Ciencia*, Academia Mexicana de Ciencias y Universidad Politécnica de Aguascalientes, Nov. 2008.
37. “Markovito: un robot de servicio”, IV Congreso de Informática, Robótica e Inteligencia Artificial, Acapulco, Nov. 2008.
38. “Conclusiones sobre la computación en México”, Panel de Conclusiones del Congreso 50 años de la computación en México, UNAM, Nov. 2008.
39. “Markovito: un robot de servicio”, Facultad de Ingeniería Mecánica, Eléctrica y Electrónica (FIMEE), Universidad de Guanajuato, April 2008.
40. “Approximate solution of complex decision problems and its application to robot navigation”, Primer Taller en Planificación de Movimientos y Robótica, Centro de Investigación en Matemáticas, Feb. 2007.
41. “Modelos gráficos probabilistas en inteligencia artificial”, XXXIX Congreso Nacional de la Sociedad Matemática Mexicana, Oct. 2006.
42. “Análisis de imágenes médicas”, 2do Simposium Internacional de Ingeniería Biomédica, Tecnológico de Monterrey, March 2006.
43. “Robots controlados por Internet”, 6 Concurso nacional de minirobótica, IEEE Sección Querétaro, CIDESI, May 2001.
44. “Teleoperación y manipulación robótica”, 1er Simposium Internacional de Cirugía Asistida por Computadora, Inst. Nal. de Cancerología, August 2000.
45. “Presepectivas de desarrollo en inteligencia artificial”, 1er Simposium Internacional de Cirugía Asistida por Computadora, Inst. Nal. de Cancerología, August 2000.
46. “Redes bayesianas y sus aplicaciones”, 1er Congreso de Informática y Sistemas Computacionales, Inst. Tec. de San Juan del Rio, May 2000.
47. “Robótica móvil”, III Congreso nacional de ingeniería en sistemas computacionales, Inst. Tec. de Tehuacán, Nov. 1999.
48. “De datos a decisiones: un marco probabilístico para la IA”, Congreso int. en sistemas comp. e IA, Inst. Tec. de Zacatepec, Sept. 1999.

49. “Descubrimiento de conocimiento en bases de datos”, Foros Computación de la Teoría a la Práctica, Academia Mexicana de Ciencias y CIC-IPN, May 1999.
50. “De datos a decisiones: un marco probabilístico para la IA”, Seminario de Computación UNAM, March 1999.
51. “Robótica móvil”, Segunda Semana Académica, Inst. Tec. de Zacatepec, Nov. 1998.
52. “Logros y perspectivas de la inteligencia artificial”, 4a Semana de la Universidad Mesoamericana, Oaxaca, May 1998.
53. “Redes probabilísticas y su aplicación a la toma de decisiones”, II Simposio Interdisciplinario de administración y sistemas, ITESM Campus Mazatlán, April 1998.
54. “Visión computacional”, Conferencia Magistral, Universidad Autónoma de Puebla, Sept. 1997.
55. “Computación Flexible”, Jueves Computacionales, ITESM–Morelos, May 1997.
56. “Redes Causales Probabilísticas: fundamentos y aplicaciones”, III Congreso Internacional de Sistemas Computacionales, Universidad de Tamaulipas, April 1997.
57. “Redes Bayesianas y sus Aplicaciones”, Congreso de Computación, Tec. de Acapulco, Dec. 1996.
58. “Redes Causales Probabilísticas: fundamentos y aplicaciones”, UDLA, May 1996.
59. “Bayes vs. Rosenbaluth: semejanzas y diferencias de redes Bayesianas y red neuronales”, Ciclo de Conferencias IEEE-CENITED-ITESM, ITESM - Morelos, Nov. 1995.
60. “Visión Computacional: Principios y Aplicaciones”, Congreso Internacional de Sistemas Computacionales, Universidad de Tamaulipas, Tampico, Tamaulipas, April 1995.
61. “Sistemas Expertos y sus Aplicaciones en Medicina”, Facultad de Química, Universidad de Guanajuato, Guanajuato, Gto., March 1994.
62. “Sistema Experto para Endoscopía”, Seminario de Sistemas Expertos y sus Aplicaciones, ITESM - Campus Morelos, 1993.
63. “Redes Bayesianas y su Aplicación en Visión por Computadora”, Sociedad Mexicana de Inteligencia Artificial, ITAM, México, D.F., March 1993.
64. “Aplicaciones de Microprocesadores”, Segundo Seminario de Ingeniería Electrónica, ITESM - Campus Edo. de México, 1987.
65. “Uso de Computadoras como Controladores”, IV Symposium de Ingeniería, CETYS, Mexicali, BC, 1987.
66. “Sistema de Control basado en Microprocesadores para aplicaciones Industriales”, III Symposium de Ingeniería, CETYS, Mexicali, BC, 1986.
67. “Procesamiento Distribuido mediante Microprocesadores”, Primera Semana de Ingeniería, ITESM - Campus Morelos, 1983.

### 7.3 Seminars and Tutorials

1. Tutorial: “Procesos de decisión de Markov en robótica”, Escuela de Invierno de Robótica, FMR, Puebla, Jan. 2017.
2. “Graphical models for medical applications”, Winter School on Ubiquitous Computing, UbiHealth European Project, Puebla, Mexico, January 2014.
3. Tutorial: “Robot Vision: a Bayesian Approach”, Robotics Winter School, INAOE, December 2013.
4. Short course: “Bayesian Perception”, Summer School on Images and Robotics, LAFMI (France–Mexico), 2000, 2001, 2002, 2003, 2004, 2005, 2006, 2007, 2009, 2012.
5. Tutorial: “Planning under Uncertainty with Markov Decision Processes”, MICAI 2006, Tlaxcala, México.
6. Tutorial: “Markov Decision Processes”, Iberamia 2005, Puebla, México.
7. Short course: “Probabilistic graphical models”, I Encuentro sobre la matemática aplicada a la ingeniería, la computación y las ciencias”, Instituto Tecnológico de Costa Rica, Feb. 2001.
8. Tutorial: “Computer Vision”, CIenSCIA 99, Inst. Tec. de Zacatepec, Sept. 1999.

## 8 Academic

### 8.1 Post-doctoral Researchers Supervised

1. Alejo Mosso, Jan. 2014 - Dec. 2015. Optimization techniques for robot manipulation and energy markets.
2. Luis Valentín, Feb. 2015 - July 2017. Video surveillance and service robotics.
3. Efraín López-Damian, 2008 - 2009. View planning for 3D object reconstruction with mobile robots.
4. Héctor Avilés, 2006–2007. Service robots.

### 8.2 Thesis Supervised

#### 8.2.1 Doctoral

1. Víctor Alonso Pérez, “Face Recognition and De-Identification in the Frequency Domain”, PhD Thesis, INAOE, Puebla, (Dec. 2016).
2. Elías Ruiz Hernández, “Representation and Recognition of Visual Categories with Visual Grammars and Probabilistic Graphical Models” PhD thesis, INAOE, Puebla (Feb. 2016).
3. Pablo Hernández Leal, “Strategic Interactions Between Agents with Bounded Rationality”, PhD thesis, INAOE, Puebla (December 2015).
4. Leonardo Chang Fernández, “AN OBJECT DESCRIPTION AND CATEGORIZATION METHOD BASED ON SHAPE AND APPEARANCE FEATURES”, PhD thesis, INAOE, Puebla (June 2015).
5. Annette Morales González Quevedo, “Methods for automatic object recognition combining appearance models and spatial and hierarchical relations”, Inst. Sup. Politécnico José Antonio Echeverría, La Habana, Cuba (December 2014).

6. Juan Irving Vásquez Gómez, “View planning for 3D object reconstruction with mobile robots”, PhD thesis, INAOE, Puebla (December 2014).
7. Carlos Arturo Hernández, “Spatial relations for image annotation and retrieval”, PhD thesis, INAOE, Puebla (September 2010).
8. Hugo Jair Escalante, “Semantic annotation for image annotation and retrieval”, PhD thesis, INAOE, Puebla (Feb. 2010).
9. Francisco Elizalde, “Generación de Explicaciones con Técnicas Probabilistas en Asistentes Inteligentes”, (Jan. 2009), PhD Thesis, ITESM - Campus Cuernavaca.
10. Yasmín Hernández, “Modelo de Comportamiento Afectivo para Sistemas Tutores Inteligentes”, (Dec. 2008), PhD Thesis, ITESM - Campus Cuernavaca.
11. José Antonio Montero Valverde, “Reconocimiento contextual de gestos para la toma de decisiones” (June 2007), PhD Thesis, ITESM - Campus Cuernavaca.
12. Miriam Martínez Arroyo, “Aprendizaje de clasificadores bayesianos estáticos y dinámicos” (June 2007), PhD Thesis, ITESM - Campus Cuernavaca.
13. Héctor Hugo Avilés Arriaga, “Reconocimiento Visual de Ademanes Aplicado a Robots Móviles” (June 2006) PhD Thesis, ITESM - Campus Cuernavaca.
14. Alberto Reyes Ballesteros, “Representación y aprendizaje ed procesos de decisión de Markov cualitativos” (Nov. 2006). PhD Thesis, ITESM - Campus Cuernavaca. (co-supervisors: Eduardo Morales and Pablo Ibargüengoytia)
15. Julieta Noguez, “Modelo probabilístico relacional del estudiante para laboratorios virtuales”. (Dec. 2005) PhD Thesis, ITESM - Campus Cuernavaca.
16. Jaime Solano, “Configuración de sistemas alta confiabilidad”. (Jan. 2003) PhD Thesis, ITESM - Campus Morelos.
17. Rocío Díaz de Leon, “Reconocimiento de actividades humanas”. (May 2003) PhD Thesis, ITESM - Campus Morelos.
18. Leonardo Romero, “Construcción de mapas y localización de robots móviles: un enfoque probabilista” (Nov. 2001). PhD Thesis, ITESM - Campus Morelos. (co-supervisor: Eduardo Morales)
19. Gustavo Arroyo Figueroa, “Razonamiento Probabilístico Temporal para Predicción y Diagnóstico”. (April 1999) PhD Thesis, ITESM - Campus Morelos.
20. Gerardo Torres Toledano, “Redes Bayesianas con Variables Gamma y su Aplicación al Análisis de Confiabilidad” (April 1999). PhD Thesis, ITESM - Campus Morelos.
21. Andres Rodríguez, “Probabilistic Exemplar Model for Case-based Reasoning” (June 1998). PhD Thesis, University of Salford, UK (co-supervisor: Sunil Vadera)
22. Pablo Ibargüengoytia, “Any-Time Probabilistic Sensor Validation” (Dec. 1997). PhD Thesis, University of Salford, UK (co-supervisor: Sunil Vadera)

### 8.2.2 Master

1. Patrick Heyer Wollenberg, “Evaluación automática de destreza motriz con una representación no específica al sensor”, Maestría en Ciencias Computacionales, INAOE, Feb. 2017.
2. Arlem Aleida Castillo Ávila, “Análisis de usabilidad de entornos virtuales incorporando surrogados de actividad cognitiva”, Maestría en Ciencias Computacionales, INAOE, Feb. 2017.
3. Ramón Izquierdo Córdova, “Exploración de Ambientes Estructurados para Búsqueda de Objetos con un Robot Móvil Usando Información Obtenida de Internet”, INAOE - Ciencias Computacionales, Enero 2016
4. Nahúm Sánchez Taxis, “Método Para la Reducción de Auto-codificadores en Aprendizaje Profundo” INAOE - Ciencias Computacionales, Febrero 2016
5. Jesús Joel Rivas, “Multi-resolution Semi-Naive Bayesian Classifier for Affective State Estimation: An Application in Virtual Rehabilitation”, INAOE - Ciencias Computacionales, Noviembre 3, 2015.
6. Mallinali Ramírez Corona, “Multi-label hierarchical classification for tree and DAG structures”, INAOE - Ciencias Computacionales, October 7, 2014.
7. Lindsey Fiedler Cameras, “Transfer Learning for Temporal Nodes Bayesian Networks”, INAOE - Ciencias Computacionales, November 2013.
8. Harold Andres Vasquez Chavarria, “Método para la segmentación y reconocimiento simultáneo de ademanes”, INAOE - Ciencias Computacionales, Septiembre de 2013.
9. Maribel Marín Castro, “Modelo Jerárquico para la Clasificación de Galaxias”, INAOE - Ciencias Computacionales, Noviembre de 2012.

### 8.2.3 Bachelor

1. Juan Manuel Oropeza, “Diseño de un ambiente virtual orientado a la rehabilitación de extremidades superiores”, (Dic. 2012), BUAP, Puebla.
2. Thania R. Félix, “Recuperación de Imágenes de Arte basada en sus Descriptores de Texturas y Apariencias de Color”, (Nov. 2011), BUAP, Puebla.
3. Gerardo R. Conde, “Segmentación simplificada para etiquetado de imágenes utilizando Quadrees”, (Dic. 2010), BUAP, Puebla.
4. Karolina Meyer, “Simulación de Proxemia mediante Redes Bayesianas”, (Feb. 2004), Universidad La Salle, Cuernavaca.
5. Jesus Noriega Rojas, “Herramienta basada en Redes Probabilísticas para Sistemas Expertos con Incertidumbre” (March 1994), UNAM-IIE.

### 8.3 Courses

- INAOE, Jan 2006–to date. Courses:
  - Doctoral Seminar (Ph.D.) 2009, 2010, 2011
  - Probabilistic graphical models (M.Sc./Ph.D.) 2006, 2007, 2008, 2009, 2010, 2011, 2012, 2013, 2014, 2016
  - High-Level Vision (M.Sc./Ph.D.) 2009
  - Artificial Intelligence (M.Sc.) 2009, 2014
  - Introduction to Robotics (M.Sc.) 2008
  - Probabilistic Robotics (Ph.D.) 2007
  - Discrete Mathematics (preparation for M.Sc) 2007, 2009, 2014
- UPAEP, Jan 2011–May 2011. Courses:
  - Methods for Artificial Intelligence (B.Sc.) 2011
- ITESM Campus Cuernavaca, full time professor, Jan 1994-Dec 2005. Courses:
  - Computer Vision (M.Sc./Ph.D.) 1994, 1995, 1997, 2002, 2005
  - Advanced topics in AI (M.Sc.) 1994
  - Discrete mathematics (M.Sc.) 1994
  - Artificial intelligence (B.Sc.) 1994, 1995, 1996, 1997
  - Reasoning under uncertainty (M.Sc./Ph.D.) 1995, 2001, 2003, 2005
  - Computer engineering II (BSc.) 1995
  - Probabilistic networks (Ph.D.) 1996
  - Knowledge representation (M.Sc.) 1996, 1999, 2000, 2001, 2002
  - Advanced Knowledge representation (Ph.D.) 1997
  - Probabilistic graphical models (M.Sc./Ph.D.) 1998, 1999
  - Robotics and vision (M.Sc./Ph.D.) 1999
  - Intelligent robotics (B.Sc.) 2001, 2002, 2002, 2003

- Image processing (master) 2000
  - Mobile robots (M.Sc./Ph.D.) 2004
  - Image processing (B.Sc.) 2004
  - Statistics in AI (Ph.D.) 2005
- Instituto Tecnológico y de Estudios Superiores de Monterrey, Campus Morelos, Cuernavaca, Mor., México, assistant professor 1983-1993. Courses:
    - Assembly language programming (B.Sc.) 1983, 1984
    - Computer organization I (M.Sc.) 1985
    - Computer organization II (M.Sc.) 1983, 1987
    - Computer design (M.Sc.) 1984
    - Digital systems reliability (M.Sc.) 1986
    - Communication systems (M.Sc.) 1993
    - Knowledge representation (M.Sc.) 1993
  - Assistant professor, Centro Nacional de Investigación y Desarrollo Tecnológico (CENIDET), Cuernavaca, Mor., México, 1987-1993. Courses:
    - Operating systems (M.Sc.) 1987
    - Computer vision (M.Sc.) 1988, 1993

## 9 Technology Development and Transfer

### 9.1 Technology Projects

1. “ICON: Desarrollo de una Infraestructura de Cómputo en la Nube con Sistema de Autoayuda Basada en Código Abierto, Proyecto CONACYT nmero: 233173”, CONACYT-Secretaría de Economía, 2016. Collaboration with T-Systems México.
2. “Métodos y Técnicas de Inteligencia Computacional y Minería de Datos para la Toma de Decisiones en Explotación de Campos Maduros” Proyecto 146515, Fondo Sectorial CONACYT-SENER-HIDROCARBUROS. Colaboración IMP, INAOE, IIE, CIMAT, IPN. Director del Proyecto por INAOE. 2010-2014.
3. “SIIREX”, CONACYT-Secretaría de Economía, 2014. Collaboration with Probayes and UABC.
4. “VISENS”, CONACYT-Secretaría de Economía, 2014. Collaboration with Probayes and CIMAT.
5. “SICAAV”, CONACYT-Secretaría de Economía, 2013. Collaboration with Probayes and CIMAT.
6. “MIRADA”, CONACYT-Secretaría de Economía, 2012. Collaboration with Probayes.
7. Low Cost System for Rehabilitation after Stroke (2006–2010). A computer system that allows a patient to interact with a virtual environment via visual tracking of arm and hand movements, designed for upper extremity rehabilitation of stroke patients, developed in collaboration with UC Irvine, USA, and the National Institute for Neurology and Neurocirugy (INNN), Mexico. The system has undergone clinical trails and INNN with good results and it is currently under technological transfer for industrial production.

8. Data Mining for Optimization of Steel Production (2006–2009). A set of software tools based on machine learning techniques have been developed for Tennaris-Tamsa (industrial plant in Veracruz, Mexico), and are currently in use at the steel production facility. These tools have been very useful in optimizing the production of steel tubes resulting in important economical savings and quality improvements.
9. Bayesian techniques for power plants (1996-2009). In collaboration with the Electrical Research Institute (IIE, Mexico), we have developed novel techniques based on Bayesian networks and Markov decision processes for data validation, diagnosis, control and tutoring in electrical power systems. Based on these techniques, the IIE has developed several systems for the electrical utilities and industry in Mexico.
10. Supervisory control system for electrical power distribution (1985–1988). A multicomputer system for supervisory control (SCADA) of electrical distribution networks was developed at IIE under my supervision; these systems were transferred to CFE and were under operation in Morelia and Toluca.
11. Remote Terminal Unit (RTU) for electrical distribution (1982–1985). Participation in the team that developed a multi-protocol microprocessor-based RTU at the Electrical Research Institute (IIE), Cuernavaca, Mexico. The RTU was transferred to industry and several hundred were produced and in operation.

## 9.2 Patents

1. “MANGO PORTATIL PARA REHABILITACION DE EXTREMIDADES SUPERIORES”. Patent approved in Mexico (IMPI). Feb. 26, 2015. No. Patente MX 328165 B
2. “SISTEMA DE TERAPIA DE SEGUIMIENTO VISUAL MONOCULAR 3D PARA LA REHABILITACIÓN DE LAS EXTREMIDADES SUPERIORES DE SERES HUMANOS”. Patent approved in Mexico (IMPI), July 8th, 2014. Patent title No. 321798.
3. “Portable handle for upper limb rehabilitation”. European patent application No. EP2532392. Approved April, 2017.
4. “PORTABLE HANDLE FOR UPPER LIMB REHABILITATION”. USA Patent Application No. US 2013/0165825 A1, Published June 27, 2013.
5. “3D MONOCULAR VISUAL TRACKING THERAPY SYSTEM FOR THE REHABILITATION OF HUMAN UPPER LIMBS”. USA Patent Application US 2012/0077163 A1, Published March 29, 2012.
6. “3D monocular visual tracking therapy system for the rehabilitation of human upper limbs”. Patent application in Canada No. CA2,731,775.
7. Provisional Patent Application: “Hand gripper for visual tracking, pressure sensing and control for rehabilitation of higher extremities”, U.S. Patent, Feb. 2010.

## 10 Projects

### 10.1 International Scientific Projects

1. “SmartSDK: A FIWARE-based SDK for developing Smart Applications”. Sponsored by FONCI-CYT –European Community H2020 and CONACYT (2016-2018). Project director at INAOE.

2. “UBI-HEALTH”, Project Sponsored by the European Union / Marie Curie, 2012-2016. International network of 9 institutions in Europe and rest of the World. Project Leader: CREATE-NET, Italy. Project director at INAOE.
3. “An Intelligent Tutoring System Based on Novel Sensing Modalities”. Project leader in Mexico, in collaboration with A. Soto, PUC, Chile. Sponsored by LACCIR –Microsoft Research and the Inter-American Development Bank (2012-2013).
4. “Dynamic Probabilistic Graphical Models and Applications”. Project Coordinator, in collaboration with 9 institutions in Mexico and Europe. Sponsored by FONCICYT –European Community and CONACYT (2009-2011).
5. “A REAL TIME SYSTEM BASED ON COMPUTER VISION TECHNIQUES TO SUPERVISE AND ALLOCATE CASH REGISTERS AT GROCERY STORES”. Project leader in Mexico, in collaboration with D. Mery and A. Soto, PUC, Chile. Sponsored by LACCIR –Microsoft Research and the Inter-American Development Bank.
6. “Targeting T-WREX to Improve Functional Outcomes of Upper Extremity Therapy”. Sponsored by the Department of Education, USA. National director of the project. In collaboration with Dr. D. Reinkensmeyer, UC Irvine and the Rehabilitation Institute Research Corporation (2007-2009).
7. “Remote Experimentation Network (RexNet)”. ALFA project sponsored by the EEC. Project coordinator in Mexico. Collaboration of 10 institutions in Europe and LA (2005-2006).
8. “Gesture Therapy”. Director of the Mexican side. Sponsored by UC MEXUS - CONACYT. In collaboration with Dr. D. Reinkensmeyer, UC Irvine (2005-2007).
9. “ELVIRA II: Applications of Probabilistic Graphical Models”. Director: Dr. Javier Díez Vegas, UNED, Spain. Sponsored by Ministerio de Ciencia y Tecnología, Spain. In collaboration with UNED, Univ. Catilla-La Mancha, Spain, and ITESM Campus Cuernavaca, IIE, Mexico (2002-2004).
10. “Integration of probabilistic and logical models for gesture recognition”. Project director. Sponsored by CONACYT and *National Science Foundation* (NSF), E.U.A., in collaboration with Dr. Sebastian Thrun, Carnegie-Mellon Univ. (2000 - 2003).
11. “Development of domain-independent natural language models” sponsored by CONACYT and *National Science Foundation* (NSF), E.U.A.; in collaboration with Dr. James Allen (University of Rochester) and Dr. Luis Alberto Pineda (Instituto de Investigaciones Eléctricas)

## 10.2 National Scientific Projects

1. “Desarrollo de tecnología basada en inteligencia artificial y mecatrónica para integrar un parque de generación de energía eólica a una red inteligente” - parte del CEMIE-Eólico, Fondo SENER-CONACYT, 2014-2018. \$7,883,326 MN. Project Director.
2. “Salud Ubicua” (Ubi-Salud). Research Network sponsored by CONACYT-Redes Temáticas, 2014, \$ 1,400,000 MN. Project Director.
3. “Video Vigilancia Automática: Hacia un Sistema Genérico de Análisis Inteligente de Videos”, Sponsored by CONACYT-Problemas Nacionales, 2014-2017. \$ 990,000 MN. Project Director.
4. “Ubiquitous Computing: Ubiquitous Health”, Sponsored by CONACYT-Redes Temáticas, 2013-2014. \$ 1,080,000 MN. Project Director.

5. “Predicción de la generación eléctrica en parques eólicos y optimización de la compra-venta de energía mediante técnicas de inteligencia artificial”, CONACYT-SENER-BID, 2012–2014. Colaboración con IIE, México y CICE, Ecuador.
6. “Data Mining for Secondary Petroleum Extraction”, Sponsored by PEMEX-CONACYT (2011-2013)
7. “Visual Grammars”. Project director. Sponsored by Ciencia Básica - CONACYT (2009-2012).
8. “Learning by demonstration for humanoid robots”. Sponsored by Ciencia Básica - CONACYT (2008-2011). Collaborator, responsible E. Morales.
9. “Low cost system for rehabilitation of upper extremities after a stroke”. Project director, in collaboration with UNAM and INNN. Sponsored by Secretaría de Salud and CONACYT (2008-2010).
10. “Integrating visual and textual information for content-based image retrieval”. Group project, coordinated by A. López, collaborators: M. Montes, L. Villaseñor, E. Morales, J. González. Sponsored by Ciencia Básica - CONACYT (2007-2010).
11. “Abstraction and decomposition for solving complex Markov decision processes”. Project director. Sponsored by Ciencia Básica - CONACYT (2005-2008).
12. “Intelligent tutors and virtual labs for high-school education”. Project director. Sponsored by SEP - CONACYT (2005–2007).
13. “A general and modular architecture for virtual laboratories”. Project director. Group project sponsored by CONACYT, in collaboration with ITESM-Mty, ITESM-CEM, UNAM-FC e IPN-CIC. 2003-2004.
14. “Perception and Navigation for mobile robots in dynamic environments”. ITESM Campus Cuernavaca. Project director. Sponsored by CONACYT (1999 - 2002)
15. “An environment for knowledge discovery in data bases” Sponsored by CONACYT, in collaboration with Drs. Eduardo Morales, José Torres and Carlos Mendoza, ITESM Campus Morelos.
16. “Virtual robotics laboratory”, ITESM Campus Morelos. Project director. Sponsored by REDII-CONACYT (1998).
17. “Multi-modal intelligent interfaces”, ITESM Campus Morelos. Project director. Sponsored by REDII-CONACYT (1998).
18. “Multifunctional knowledge bases”. Project director. Sponsored by CONACYT. April 1995 – April 1998.

### 10.3 Industrial Projects

1. “System for data validation”. Sponsored by Tubos de Acero Mexicanos S.A. (TAMSA). Project Co-director. May 2008 - Jan. 2009.
2. “KDD for Thermal Treatment”. Sponsored by Tubos de Acero Mexicanos S.A. (TAMSA). Project Co-director. Jan. 2006 - June 2006.
3. “KDD for a Lamination Process (LACO)”. Sponsored by Tubos de Acero Mexicanos S.A. (TAMSA). Project Co-director. Jan. 2006 - June 2006.

4. “Car plate recognition”. Project director. Sponsored by SIRIUS e ITESM - Campus Morelos. August 1996 – Jun. 1997.
5. “Expert system for operator assistance in electrical power distribution systems”, Project director. Sponsored by IIE, 1993-1994.
6. “Expert system for endoscope navigation”, Collaborator. Sponsored by Olympus, Japan, Imperial College, London, 1989-1992.
7. “Supervisory control system for electrical power distribution”, Project director. Sponsored by CFE (two systems in operation), IIE, 1985-88.

## 10.4 Scientific and Academic Competitions

1. 2nd place in RoboCup@Home, Team Markovito (INAOE), Mexican Robotics Tournament (TMR), FMR, Estado de México, March 2017.
2. Finalist in RoboCup@Home, Team Markovito (INAOE), RoboCup International Competition, Leipzig, Germany, 2016.
3. 1st place in RoboCup@Home, Team Markovito (INAOE), Mexican Robotics Tournament (TMR), Ciudad Victoria, Tamaulipas, Marzo 2016.
4. 1st place in RoboCup@Home, Team Markovito (INAOE), Mexican Robotics Tournament (TMR), Ciudad de México, April 2015.
5. 2nd place in RoboCup@Home, Team Markovito (INAOE), Mexican Robotics Tournament (TMR), Ciudad del Carmen, Campeche, Mexico, April 2014.
6. 1st place in RoboCup@Home, Team Markovito (INAOE), Mexican Robotics Tournament (TMR), Puebla, Mexico, 2013.
7. Finalist in RoboCup@Home, Team Markovito (INAOE), RoboCup International Competition, Istanbul, Turkey, 2011.

## 11 Participation in Editorial Boards, Journal Reviewer and Program Committees

### 11.1 Editor or Conference Chair

1. Associate Editor of the journal “Pattern Recognition”, Elsevier, 2016.
2. Track Chair International Conference on Pattern Recognition (ICPR), 2016.
3. Member of the Editorial Board of the Ibero-americana Journal on Artificial Intelligence, 2015.
4. Invitation to the Editorial Board, Computational Intelligence Journal, June 2015.
5. Invited editor of the special issue “Uncertain Reasoning at FLAIRS 2010”, “International Journal of Approximate Reasoning”, Elsevier, 2012.
6. Associate Editor of the Ibero-American Journal on Artificial Intelligence.
7. Associate Editor of the Journal “Computación y Sistemas”.

8. Invited editor of the special issue “Uncertain Reasoning at FLAIRS 2010”, International Journal of Approximate Reasoning (IJAR), 2012.
9. Invited editor of the special issue “Uncertain Reasoning at FLAIRS 2009”, International Journal of Approximate Reasoning (IJAR), 2011.
10. Invited editor of the special issue “50 años de la Computación en México”, Journal Computación y Sistemas, Sept. 2008.
11. Editor of the “Uncertain Reasoning Track”, FLAIRS 2009, 2010.
12. Track Chair on Computer Vision, MICAI 2008.
13. Track Chair on Uncertain Reasoning, Iberamia 2008.
14. Local Chair for Uncertainty on Artificial Intelligence Conference (UAI) 2003.
15. Member of the Advisory Board of the International Joint Conference on Artificial Intelligence (IJCAI), 2001.
16. Conference Chair, Mexican Conference on AI (MICAI), 2002.
17. Program Chair, Mexican Conference on AI (MICAI), 2000.
18. Program Chair, World Congress on Expert Systems, 1998.
19. Program Chair, Reunión Nacional de Inteligencia Artificial”, 1995.

## 11.2 Journal Reviewer

1. Reviewer International Journal of Approximate Reasoning, Elsevier, June 2017.
2. Reviewer of the journal IEEE Transactions on Biomedical Engineering, Jan. 2016
3. Reviewer of the journal Robotics and Autonomous Systems, April 2016
4. Reviewer for the Journal Neurocomputing, Elsevier, 2014.
5. Reviewer for the Journal Knowledge-Based Systems, 2010.
6. Reviewer for BioMed Central Journals, 2009-2010.
7. Reviewer for IEEE Transactions on Neural Systems and Rehabilitation Engineering, 2009.
8. Reviewer for the International Journal of Approximate Reasoning, 2008-2010
9. Reviewer for the International Journal on Knowledge and Data Engineering, 2009.
10. Reviewer for the IEEE Transactions on Knowledge and Data Engineering, 2009.
11. Reviewer of Applied Soft Computing Journal, since 2007
12. Reviewer of the Journal IEEE Applied Bionics and Biomechanics, since 2007.
13. Reviewer of the Journal IEEE Decision Support Systems, since 2006.
14. Reviewer of the Journal IEEE Transactions on Robotics, since 2006.
15. Reviewer of the Journal Pattern Recognition Letters, 2005.

16. Reviewer of IEEE Transactions on Systems, Man and Cybernetics, since 1998.
17. Reviewer of the Journal of Real-Time Systems (Kluwer)
18. Reviewer of International Journal of Engineering Applications of Artificial Intelligence (Pergamon Press), 2000.
19. Reviewer of Expert Systems with Applications (Pergamon Press), 1998.

### 11.3 Conference Program Committees

1. Member of the Program Committee of IEEE-CVPR 2017.
2. Member of the Program Committee of RoboCup Symposium, May 2017
3. Member of the Program Committee of Bayesian Modeling Application Workshop, UAI 2017.
4. Member of the PC of Uncertainty on Artificial Intelligence Conference (UAI) 2017.
5. Member of the PC of IROS 2016.
6. Member of the PC of Internacional RoboCup Symposium, Mayo 2016
7. Member of the Program Committee of Bayesian Modeling Application Workshop, UAI 2016.
8. Member of the PC of the “Uncertain Reasoning Track”, FLAIRS 2016.
9. Member of the PC of Uncertainty on Artificial Intelligence Conference (UAI) 2016.
10. Member of the Program Committee of RoboCup Symposium 2015.
11. Member of the Program Committee of Bayesian Modeling Application Workshop, UAI 2015.
12. Member of the PC of the “Uncertain Reasoning Track”, FLAIRS 2015.
13. Member of the Program Committee of ECML-PKDD 2015.
14. Member of the PC of Uncertainty on Artificial Intelligence Conference (UAI) 2015.
15. Member of the Program Committee of IBERAMIA 2014, Area Chair for Computer Vision, November 2014.
16. Member of the Program Committee of “1st International Conference of the Portuguese Society for Engineering Education”, Nov. 2013.
17. Member of the Program Committee of “IEEE International Conference on Robotics and Automation”, Nov. 2013.
18. Member of the Program Committee of “IEEE International Conference on Robotics and Automation”, Nov. 2012.
19. Member of the Program Committee of “Probabilistic Graphical Models (PGM)”, 2012.
20. Member of the Program Committee of RoboCup Symposium 2012.
21. Member of the Program Committee of IBERAMIA 2012.
22. Member of the Program Committee of Uncertainty in Artificial Intelligence (UAI), 1998, 2004, 2006, 2009

23. Member of the Program Committee of IROS 2008–2009.
24. Member of the Program Committee of “International Workshop on Algorithmic Foundations of Robotics” (WAFR), 2008.
25. Member of the Program Committee of IBERAMIA 1996–2012.
26. Member of the Program Committee of FLAIRS 2008-2013.
27. Member of the Program Committee of IFAC-Cost Effective Automation, 2007.
28. Member of the Program Committee of IJCAI 2005.
29. Member of the Program Committee of MICAI 2000–2011.
30. Member of the Program Committee of CIARP 2006–2011.
31. Reviewer for the International Joint Conference on Artificial Intelligence (IJCAI) 2003.

#### 11.4 Scientific and Academic Organization

1. General Chair of AFI 2016 - Summit on Application of Future Internet, Puebla, México, May 2016.
2. Member of the Organizing Committee of the National Robotics Tournament (TMR), Ciudad Victoria, Tamaulipas, México, March 2016
3. Workshop Chair of WATT 2015 - Workshop on Adaptive Treatment and Therapies. Pervasive Health, May 2015, Istanbul, Turkey.
4. Member of the Organizing Committee of the National Robotics Tournament (TMR), Ciudad de México, México, April 2015.
5. Member of the Organizing Committee of the National Robotics Tournament (TMR), Ciudad del Carmen, Campeche, México, April 2014.
6. Member of the Organizing Committee of the National Robotics Tournament (TMR), Puebla, Mexico April 2013.
7. Member of the Organizing Committee of RoboCup 2012, Mexico City.
8. Founding member of the Mexican Robotics Federation (organizer of the Mexican Robotics Tournament and representative of RoboCup in Mexico), member of the Executive Council since 2011.
9. Founder of the MICAI series of international conferences, which recognized as the *best* conference in Artificial Intelligence and published by Springer–Verlag. Organizer of MICAI 2000 and 2002.
10. Founder of the Mexican International Conference on Computer Science (ENC), recognized and published by IEEE. Organizer of ENC 1997.
11. Founder of the Metropolitan Contest on Robotics, later the National Tournament on Robotics, which is the main competition in robotics in Mexico. I have been part of the Organizing Committee since 2005.
12. Organizer and member of the Scientific Committee of the French–Mexican Summer School on Images and Robotics since 2001. Local organizer in 2001 (Cuernavaca, Mexico) and 2009 (Puebla, Mexico).
13. Member of the Organizing Committee of the International Conference on Uncertainty in Artificial Intelligence (UAI) in 2003.

## 12 Academic and Evaluation Committees, and Professional Societies

### 12.1 Academic Committees

1. Member of the Extended Academic Committee, INAOE, 2007.
2. Member of the Committee for the revision of the academic regulations of INAOE, 2006, 2010.
3. Reviewer for Professorship Application of Dr. Duncan Gillies, Imperial College, London, 2005.
4. Member of the Professors Classification Committee, ITESM-RSX, 1999-2002.
5. Member of the Technical Committee for revision of the Programs of Private Universities, SEP, 1995.
6. Member of the Technical Committee for the design of the curricula, Master Program in Computer Science, CENIDET, Cuernavaca, Mor., 1987.
7. Member of the Technical Committee for the design of the curricula, Master of Science in Information Systems, I.T.E.S.M., Morelos Campus, Cuernavaca, Mor., 1985.

### 12.2 Evaluation Committees

1. Reviewer Small Business Innovative Research, NIFA, USA, Jan. 2017.
2. Reviewer "Proyecto para Atender Problemas Nacionales", CONACYT, May 2017.
3. Member of the Graduate Programs Evaluation Committee - PNPC - CONACYT, June 2016.
4. Member of the Evaluation Committee for Innovation Projects (Programa de Estímulos a la Innovación) - CONACYT, Feb. 2016.
5. Project reviewer for ECOS-ANUIES, 2012.
6. Evaluator of Premio Rómulo Garza por Investigación 2012, ITESM, Octubre 2012.
7. Project reviewer for the National Science Foundation - Small Business Innovation Research, USA, 2010.
8. Member of the External Evaluation Board, Centro de Investigación en Matemáticas (CIMAT), 2004-2009.
9. Member of the External Evaluation Board, Instituto Nacional de Astrofísica, Óptica y Electrónica (INAOE), 2001-2005.
10. Project reviewer for FONCYCYT (CONACyT and European Union), 2009.
11. Member of the Sabbatical and Post-doctoral Evaluation Committee, CONACYT, 2007-2009.
12. Project reviewer for CONACYT-Basic research, 1995-2009.
13. Project reviewer for the National Aeronautics and Space Administration (NASA), USA, 2004.
14. Member of the Project Evaluation Committee, CONACYT, 2000-2003 (president in 2003).
15. Member of the committee that evaluated the thesis for the "National Thesis Contest", CFE-IIE, 2001.

16. Member of the committee that designed the exams in computer science, CENEVAL, 2002.
17. Member of the Graduate Programs Evaluation Committee, CONACYT, 2000-2001.
18. Member of the IJCAI-01 Awards Review Committee.

### **12.3 Professional Societies**

1. President of the Mexican Robotics Federation (FMR), 2017–2018.
2. Vice-President of the Mexican Academy of Computing, 2015-2018.
3. President of the Mexican Society for Artificial Intelligence, 2000-2002. Vice-President, 1998-2000.
4. Secretary of the Computer Chapter of the Puebla Section of the IEEE, 2007.
5. President of the Computer Chapter of the Morelos Section of the IEEE, 1999-2001.
6. Member of the Organizing Committee of the Computer Society, IEEE - Mexican Section, México, D.F., 1983.
7. Member of Association for the Advancement of Artificial Intelligence (AAAI), since 2005.
8. Member of Institute of Electrical and Electronic Engineers (IEEE), since 1982.
9. Member of SMIA (Mexican AI Society), since 1995.

## **13 Scientific and Academic Distinctions**

### **13.1 Scientific Societies and Distinctions**

1. Member of the “Consejo Consultivo de Ciencias” (Science Advisory Board), Mexican Presidency, since 2017.
2. Founding member of the Mexican Computer Academy (AMEXCOMP), since 2015.
3. “TECNOS” Prize for Technological Development, Government of the State of Nuevo Leon, Mexico, 2014.
4. Member of the Mexican Academy for Informatics (Academia Mexicana de Informática - AMIAC), since 2013.
5. Member of the Mexican Academy of Engineering (Academia de Ingeniería - AI), since 2013.
6. Senior Member, IEEE, 2009
7. Member of the Mexican Academy of Science, since 2006.
8. Member of the Morelos Academy of Science, since 2006.
9. Member of the “National Research System”, Mexico, 1984-2015. Level III since January, 2011.
10. Invited Professor, INRIA, France, 2008.
11. Distinguished Speaker for the Mexican Association of Artificial Intelligence (SMIA), 2008.
12. Invited Professor, Univ. of British Columbia, Canada, 2003-2004.

13. Distinguished Speaker for the Association of Computing Machinery (ACM).
14. Professor (Research), ITESM, 1998.
15. Invitation to Imperial College sponsored by the Royal Society, London, 1995.
16. “Engineer of the Year” IEEE Morelos Section, 1995.

### 13.2 Best Paper Awards

1. *Best Poster Award* FLAIRS 2013, Florida AI association for the paper: LJ Fiedler Cameras, LE Sucar, EF Morales, “A Transfer Learning Approach for Learning Temporal Nodes Bayesian Networks”, The Twenty-Sixth International FLAIRS Conference, Florida, USA, 2013.
2. *Best Poster Award* at MICAI 2009 for the paper: Y. Hernández, L. E. Sucar, G. Arroyo, “Obtaining teacher’s expertise to refine an affective model in an intelligent tutor for learning robotics”, Guanajuato, Mexico, 2009.
3. Selection as one of the Best Papers in the International Joint Conference BIOSTEC 2008, Madeira, Portugal, January 2008.
4. Best Paper Award: “Dynamical Bayesian Networks for Visual Recognition of Dynamic Gestures”, Ibero-American Conference on Artificial Intelligence (IBERAMIA 2002), Seville, Spain, 2002.
5. Best Paper Award: “Induction of Dependency Structures from Data and its Application to Ozone Prediction”, Eight International Conference on Industrial and Engineering Applications of Artificial Intelligence and Expert Systems (IEA/AIE-95), Melbourne, Australia, June 5-9, 1995.

### 13.3 Thesis and Academic Awards

1. Supervisor of the PhD thesis the obtained the 2nd place in Informatics and Control, “XXIV Certámenes Nacionales de Tesis” (National Thesis Contest), CFE, FIDE and IIE, Mexico, 2009.
2. Supervisor of the best M.Sc. thesis in Computing, “VII Certamen Nacional sobre la mejor Tesis sobre Informática y/o Computación”, ANIEI, Mexico, 1998.
3. Supervisor of the best B.Sc. thesis in Computing, “VII Certamen Nacional sobre la mejor Tesis sobre Inform’atica y/o Computaci’on”, ANIEI, Mexico, 1994.
4. Scholarship from CONACYT for Ph.D. studies (1988-1992).
5. Scholarship from CONACYT for M.Sc. studies (1980-1982).
6. Honorable Mention - BSc. in Electronics Engineering, ITESM, 1980.
