# CALL FOR PAPERS

# Pattern Recognition Letters

## Special Issue on
## Advances in PR Methodology and Applications

**Aim and Scopes:**

This special issue aims at capturing the latest advances of the research community working in Pattern Recognition Methodology and Applications. Topics of interest include, but are not limited to:

• Novel techniques for feature extraction and selection kernel methods
• Information theoretic methods
• Structural techniques
• Syntactic methods
• Applications in bioinformatics, medicine, data mining.
• Applications to non-ordinal and non-Euclidean data

**Important Dates:**

| | |
|---|---|
| Manuscript submission deadline: | ~~October 30, 2011~~ **November 30, 2011 (Extended)** |
| First notification: | March 2, 2012 * |
| Revised manuscript submission: | May 4, 2012 * |
| Notification of final decision: | June 15, 2012 * |
| Publication of special issue: | 2012 * |

(* tentative)

**Submission of Manuscripts**

Authors are encouraged to submit their papers electronically by using online manuscript submission at: http://ees.elsevier.com/patrec/

To ensure that all manuscripts are correctly included into the special issue, it is important that authors select the acronym "PRMA" of this special issue when they reach the "Article Type" step in the submission process.

All papers will be rigorously refereed and will undergo a standard review process of PRL. The length of your manuscript should not exceed 7500 words, including maximal 10 figures/tables.

**Submission Period**

The Elsevier Editorial System will be set to allow authors to upload their manuscripts to PRMA in the period 18. August, 2011 – 30. November, 2011.

**Guest Editors:**

Edwin Hancock

Department of Computer Science at the University of York, UK
